As you’ll have seen, you can run a search of EBSCO directly from the Moodle Library page. You can also run a simple search from within EBSCO via the following steps:

**Step 1.** Type your search into the box.

You can select from popular terms or select a specific publication.

**Step 2.** Click Search

**Tip.** You can select to search Keyword, Title or Author. Unless you know the name of something specific you are looking for, we suggest you use the Keyword field so that you don’t miss any results.
